Review for Lindsay Tilger

Although I have only been to the practice twice, both times the service has been exceptional. I found this office due to a dental emergency and my requirements were not many. Essentially I just needed someone that accepted my current insurance provider, and that had respectable reviews online. Dr. Tilger had both, and after personally visiting, they offer much more. Expertise, a comfortable setting, beyond friendly front staff, and a comprehensive treatment plan are some things that come standard. Would recommend them without hesitation to friends and family.

I have been one of those "terrified patients" neglecting my teeth out of fear due to previous experiences with dental care. From the moment I walked into the office for the first time I knew I was in the right place. The staff was not only professional but immediately put me at ease. Dr. Tilger took the time to explain all the x-rays in detail and worked with me on a plan (including surgery) to produce the best results. I highly recommend Dr. Tilger and his staff, especially if you are putting off dental care because of previous bad experiences. You will receive excellent care from a caring doctor who truly delivers virtually pain free dental care.

Its always a pleasure to visit DR. Tilger. He treats you like a person instead of just a patient. The office help are always friendly and courteous. I have had far more than the average amount of dental work done and my stress level would go over the top when I had to visit a dentist. With Dr. Tilger my stress level is now controllable.

Review for Larry Tilger

Dr. Tilger and his team are the best in business! I called for a normal appointment and they got me in the same day (it was a Tuesday). That same day they discovered that my wisdom teeth needed to come out. He called a clinic down the road and asked the gentlemen to wait (after hours) so I could get my CT Scan to look at where my nerves were for pulling my wisdom teeth. The very next day, Dr. Tilger called me personally and told me that all was good for the surgery and he would move things around to get me in on that Friday! I went for the surgery and it was AMAZING! He and his whole crew made me feel so comfortable and the surgery itself (although very invasive) was pain free! Throughout the weekend Dr. Tilger called me from his cell phone to check on my progress and see how I was feeling! I have had 4 other surgeries in my life and trust me when I say that no other doctor has made me feel so comfortable with the procedure. I recommend him 100% and would highly suggest that Dr. Tilger become your dentist. They are simply AMAZING!

Review for Larry Tilger

I've had the front tooth veneer rebounded at least 4 times and this is the first time that anyone has removed the old bonding material from the tooth. In addition, it is the first time that anyone has filled in the back side of the tooth so there is no gap between the veneer and the tooth. Overall, I was very impressed and pleased.

Everyone is great here. My teeth are bad due to my acid reflux and other pain medication I take for my back, so I've had to have a few teeth extracted this year. The big teeth in the back. So it's always kind of tough to get them out. I have a hard time getting numb, and the dentist is always patient and makes sure I'm as comfortable as possible before getting into the tooth. It's refreshing to get great care, because I don't really have any family here in Texas. I lucked out that I found this dentist and his staff.

Review for Viktoriya Miller

I have great anxiety when going to the dentist for any treatment. Yesterday's appointment was for cleaning. It was the least stressful experience at a dental office I have had in years. My hygienist, Bobbyjo, was amazing and gentle. She was knowledgeable, detail-oriented and full of positive, helpful hints on how to improve my oral health. I will not hesitate to return to Dr. Tilger's office for a cleaning or any other dental procedures because of the highest level of skill and professionalism displayed each and every day to every patient.

Review for Larry Tilger

I have had very bad experiences with two dentists so I just stopped going. Then a friend of mine recommended Dr. Larry Tilger. I went to see him and his Staff met me first and then I met Dr. Tilger. They were awesome and made me feel like family. I could also tell Dr. Tilger was not in it just for the money. He explained how he could save my teeth that I thought would have to be taken out I will recommend Dr. Tilger to everyone I know. Thank you Dr. Tilger and your Staff.

I tolerated the procedure fine. I did find a very rough, jagged feeling spot at the based of a tooth when the numbness wore off later in the day. I may have to return to have that removed since it's not coming out with brushing, and I don't want to floss excessively for fear of popping the temp cap off.

I needed two implants and crowns. I already had estimates from an oral surgeon and from my regular dentist. I preferred to have it all done at one place. I went to Dr. Tilgar for an estimate. The assistant started to take X-Rays of my teeth on the wrong side. I stated that I wasn't interested in work on any other of my teeth, just the two implants. In spite of my continued objections she continued to take X-rays. Dr. Tilgar then suggested I also needed work on teeth on the other side. I said I was only interested in an estimate for what I came in for and that I wasn't happy being forced to take x-rays when those were available from my regular dentist. I was uncomfortable with effort to "up sell" and I found it interesting also that the office lacked patients. If he is so popular, as the reviews on this site suggest, why was the office almost void of other patients? The following morning, Dr. Tilgar called me three times. He seemed to be aware that I was not happy with my experience and tried to suggest that I was not clear about what I needed. I replied that I was perfectly clear and that I had repeatedly stated my desire for an estimate and no x-rays. I notice that there are

mostly perfect reviews, and many by "anonymous" that, coincidentally refer to how great the staff is. Coincidence?

I had an infected molar tooth (bottom) and was in severe pain. Couldn't even think straight and had about 45 minutes of sleep in 24 hours. They got me in and pulled my tooth, and then did a bone marrow surgery so that I could get an implant in the near future. Nurses and Dentist made me feel comfortable the whole time, which was great. I don't know too many people in Houston, as I moved here from the west coast. This is twice now that they've gotten me in spur of the moment and fixed me!

The hygienist, Christi, the office personnel (specially Beth) are super friendly and professional. Christi takes her time and explains what she is doing as well as discusses preventive steps that the patient can take to minimize plaque build-up (for example how the location of the salivary glands in the front lower jaw and back too jaw causes plaque formation on nearby teeth). Of course Dr. Tilger is In a league of his own. Very good at what he does. That's why I have been he is the only dentist I have seen since I moved to SE Texas over 10 years ago! Have been avoiding going to a dentist for years. Finally I broke down and had a cleaning, crown installed and bleaching done. The work was done with great care and results were great. Terrific up beat staff that is gentle and cares about customer

comfort and quality work. Now I will return every 6 month without fail. thought I never say that.

Dr tillger is a decent dentist but his staff is terrible, rude and incompetent. I was in the middle of an extensive and expensive treatment and switched to a different specialist. The quality of my care is now much better and the staff is professional ,courteous, and respectful. My husband also left dr. Tilger's office (different location) for the same reason. Why spend thousands of dollars and be treated like dirt. Going to the dentist is painful enough (physically and financially) I do not need the office staff to add mental anguish to it. The staff should attend customer service classes and they should realize that they have a job because of their customers.

I have had a dental phobia for as long as I can remember. I had put off going to the dentist for the past 15 years so needless to say I had numerous problems. My initial visit was for an abscessed front tooth that needed a root canal. Prior to the sedation, Dr. Tilger checked my blood pressure and discovered it was extremely high. As a result Dr. Tilger immediately referred me to a physician who diagnosed me with both high blood pressure and type 2 diabetes. This became a life saving experience for me and a turning point in my life. I have since had the root canal for which I went to Dr. Tilger for originally, but also have since had several procedures that have corrected years of neglect on my part. I now have a fantastic new smile in addition to a new healthier lifestyle thanks to Dr. Tilger. His entire staff has gone above and beyond to make sure I was comfortable with each and every aspect of my treatment. Dr. Tilger is a caring individual who takes a great deal of pride and care in his work and it shows. I too can honestly say that I no longer fear going to the dentist. My most recent visit was for a cleaning, and his new hygienist was great. My wife and I will be forever grateful to his care, attention and thoroughness. I cannot say enough about Dr. Tilger and his staff. I highly recommend.

My recent experience at Dr. Tilger's office was for a cleaning. His new hygienist was wonderful - calm, patient, caring, thorough, and professional. I could not have asked for a better experience.

I put off going for 5 years so I had lots of problems. The sedation made it so much easier. Dr. Tilger did a great job. I can't believe I waited. With 4 kids, there is never enough time or money for me so this was long over due. My teeth were embarrassing. I am so relieved, appreciative, happy.....

Everyone in this office goes above and beyond in terms of customer service. I have had a life long dental phobia. I can honestly say that I no longer fear going to the dentist. I cannot say enough about the quality of the service and equally important the caring attitude of the entire staff.

Our text reminder setup did not work. We both sent back Y when texted to sign up but it failed.

TOOK CARE OF MY DENTAL NEEDS AND PAIN MANAGEMENT. ALTHOUGH I COULD GO TO A LESS EXPENSIVE DENTAL CARE GROUP, I PREFER THE PROFESSIONAL KNOWLEDGE OF DR. TILGER AND HIS STAFF. NEVER HAD A LONG WAIT, THAT IS IMPORTANT TO ME AS I HAVE A BUSY SCHEDULE.
